UniWire Download Share
with your friends: Show your

friends what you are up to on UniWire. Simply enter a valid UniWire App account email address and hit Save Changes. Your friends will then be able to download your activity as PDF files.

Help How do I update my UniWire app account? In order to access your account

for activities on UniWire, you will need to login to the app (for details on how to do this, see the help section in the app). How do I share my activity with my friends?

After logging in to the app, click on the 'Activity' tab to view and save your activity as a PDF file. When sharing an

activity, simply select the people you want to share the activity with and click 'Save' (if you are looking at a draft activity, you can't change the people you share it with).

Your activity will then be shared with your selected contacts. Q: How can I delete rows in a pandas dataframe

that match multiple conditions for one column? I have a pandas dataframe that contains data for a customer and a sale. I need to modify the data so that for each accountid a sale occurs only once.

AccountId	SaleDate	34	
9/5/2012	34	10/10/2012	34
9/25/2013	47	12/10/2013	34

1/9/2014 34 11/8/2014 49
10/9/2014 47 11/10/2014 49
1/17/2015 A: You can apply
groupby and
filter_duplicates: In [16]: df[
df.groupby('AccountId').filter
(lambda x: len(x) ==
1).SaleDate == 1] Out[16]:
